Gary

I called and got VM from you. This week is a bit hectic (apologies – out of my control). What can I do to help you? If you give me a task or two to focus on, I'll start making progress and keep you posted. I understand we need to get this going ASAP.

Thanks

Subject: F.J. Doyle Salvage

Phil:

I just sent you the data, site map, and proposed cleanup level table (not complete). I would like you to help Paige and I review the data and come up with appropriate cleanup levels. As you saw, we sent the information to the TCEQ to assist as well but I wanted to make sure that we could come up with what we think is appropriate. We are trying to get this done fairly quickly as management wants to put money on it this FY.

Thanks
